kept busy disposing of the product
of his company's wells.

You expect to hear of house-
cleaning in the spring, but the Hon-

mud, the accumulation of two years,

PROVEN OIL FIELD EXTENDED WESTWARD.

Oil Struck at 525-foot Depth
In Townley-Kittle Well
on Richter Farm.

PLENTY OF GAS PRESSURE.

Oil was struck late Thursday af-
ternoon at a depth of 525 feet in
the Townley-Kittle well, drilled on
the R. W. Richter farm some three
and a half miles west and a little
north of the Johnson-Taylor wells.
This extends Hondo's proven oil
field that much further to the west
and would seem to indicate that a
long string of derricks will adorn
the low ridge southwest of town
in the very near future.

The oil struck is of a good qual-
ity and is accompanied by consider-
able gas. The promoters are con-
fident a pay-strata has been open-
ed up, but of course the pump alone
can determine its capacity as a
producer. Developments in that par-
ticular will be awaited with much
interest.

Both No. 1 and No. 2 of the
Johnson-Taylor wells are now under
pump and producing oil in pay quan-
tities, although the No. 2 is not so
strong as the No. 1. The Medina
Oil Company's well on the Mott
farm is showing favorable indica-
tions of oil as the drill goes down.
The No. 2 will be drilled deeper in
the hope of striking a stronger flow
of oil.

For other oil field news turn to
the last page of this paper.

Elbert de Montel is mourning the
loss of a fine German police dog
which died last Monday. Not being
an authority on dogology, we can
not say just what caused the un-
timely demise; but we suspect that it
was due to an overweening canine
desire to please his master and dis-
pair at ever achieving to the ac-
complishments of Rin-tin-tin or
White Fang, his kinsmen of movie
fame, that brought on the heart
failure.

A FAMILY REUNION.

Mr. and Mrs. W. F. Miller enjoyed a family reunion last Sunday when all of their daughters and their children were together for the time in over two years. All of sons-in-law were present also except one, W. J. Rice who is Mobile, Alabama.

A fine dinner was enjoyed by and the happily spent day passed too rapidly, bringing the hour parting again.

The personal of the party were Mr. and Mrs. W. F. Miller, the host and hostess of the occasion; Mr. and Mrs. D. E. Williams and five children, Florine, David, Ledell, E. and Willie, all of San Antonio; and Mrs. W. J. Conley, Crystal City. Mr. and Mrs. W. F. Reinhardt, two boys, Willie and Walter, of San Antonio; Mrs. W. J. Rice and two boys, W. J. Jr., and Lynn, both of Mobile, Alabama; and Miss J. Miller of Hondo.

The happy occasion will long be remembered by all present.

Mrs. Rice and her two boys left Tuesday for Mobile, Alabama, to join Mr. Rice who is employed that city.

GOOD SEASON IN GROUND

This has been a wet week for the most part in Hondo and up to Friday noon a total of 1.35 inches rain had fallen during the week. The greater part of this, .75 of an inch, fell Tuesday night.

The precipitation was so slow that it all soaked into the ground, at this 1.35 inches coming so soon after the rain of .36 of last week making a total of 1.71 for the last two weeks, has given the soil pretty good soaking. Vegetation is coming fast, and if the weather continues favorable this rain practically assures an oat crop in this section. Farmers are more hopeful that they have been in many months and stock men are "sitting pretty" with cattle fattening on the early weed and coming vegetation.

Southwest Texas is once more promising to come into its own.

SPANISH CLUB PLAY.

Members of the Spanish Club composed of members and members of the Hondo High School Spanish classes, staged a play in the Spanish language at the Auditorium last Friday night.

The young people acquitted themselves quite creditably, and those who understood the language enjoyed the performance.

The audience enjoyed the occasion with numerous pretty musical selections and the specialties between acts were noteworthy.

Miss Lewis, the Spanish language teacher, is deserving of much credit for the splendid training the young people displayed.

AZTECS WIN DOUBLE HEADER.

The Hondo Aztecs met the San Antonio Coca Colas at the Hondo Fair grounds in two games last Sunday, winning both games by the same score.

Batteries for Hondo in the morning game were Sanchez and Sanchez, and the score was 4 to 0 in Hondo's favor.

In the afternoon game, the Aztecs chalked up the same score, 4 to 0, with Dominguez and Montecada as batteries for the home team.

Buick is More Expensively Built But it Costs Less to Buy one

Buick is built more expensively than any other cars in or near the Buick price class.

"Expensively built" means that the different parts and units of the Buick motor car are the best that engineers can design. But, thanks to the large volume which public demand has given to Buick, and thanks also to production methods that are models of efficiency in an efficient industry, the Buick motor car can be sold to you at a very moderate price.

Many Buick features are duplicated only in America's highest priced motor cars.

Buick, for instance, uses the Torque Tube Drive to transmit the drive of the rear wheels to the chassis, instead of burdening the rear springs with this added duty. The highest priced car in America uses the torque tube. And so does Buick!

The American public wants finer transportation and Buick provides it at lower cost. Consequently Buick is a very popular car. Come in and examine the Better Buicks.

the Better Buick

"One year after another for the last eight years, Buick has held 110 places in dollars and cents among all members of the National Automobile Chamber of Commerce."

Stubborn Coughs Quickly Stopped This New Way

It is often surprising how the most persistent, hacking cough that not only robs you of strength and sleep, but often leads to more serious trouble, yields quickly to a simple but wonderfully effective treatment.

This treatment is based on the prescription known as Dr. King's New Discovery for Coughs. You take just one teaspoonful at bed time and hold it in your throat for 15 or 20 seconds before swallowing it. The prescription has a double action. It not only soothes and heals soreness and irritation, but it quickly removes the phlegm and congestion which are the real cause of night coughing. So with the cause removed, coughing stops quickly, your sleep undisturbed, and the entire cough condition soon disappears.

MISS STONE SECURES MEMORIAL COIN.

The special Stone Mountain Memorial coin for Medina County was sold to Miss Lena Stone for \$20.00, she being the highest bidder out of several bidding for it.

Miss Lena is the daughter of the late Uncle Charlie W. Stone, a brave Confederate soldier who rode with Terry's Texas Rangers through the four bloody years of the civil war. The keeping of this memento of Southern valor could not be entrusted to more fitting hands than to such a daughter of such a sire.

Miss Lena is the primary teacher in our public school and has many friends who will join us in congratulating her on securing the coveted trophy.

Ford

Costs More to Build—Is Worth More—Yet Sells for Less

If any other manufacturer endeavored to produce a car similar to the Ford according to the high standards of the Ford Motor Company, it would be impossible to offer it at anything like the present low Ford prices.

If the Ford Motor Company would substitute ordinary design for the basic Ford features, Ford cars could be produced and sold for less than the present Ford prices. Yet by so doing, Ford simplicity, durability and reliability would fall below the standard insisted upon by the Ford Motor Company.

Just think! 13,000,000 model T Ford cars have been produced since 1908—almost as many automobiles as were built by all other manufacturers combined. In 1925, almost 2,000,000 Ford cars and trucks were built and sold—and plans for 1926 call for the production of even more than 2,000,000.

It was the superiority of Ford design in 1908 that established Ford leadership. It is this same Ford design, improved but basically unchanged, that is continuing to make the Ford car the outstanding leader among all automobiles.

DRILLING DEEPER ON TAYLOR NO. 2.

HONDO, Tex., March 13.—Medina Oil Company's No. 2 Taylor, four miles south of Hondo and offsetting its No. 1 which is producing from 356 feet is being deepened. The No. 2 was tested at 315 feet and made considerable oil estimated to be good for 10 to 15 barrels. The No. 1 is said to have had an oil showing at about that depth and the No. 2 is now being carried down in the expectation that it will get bigger production at around 356 feet, the same as the depth of the No. 1.

No. 1 which has been waiting for the completion of the 5,000-barrel steel tank is now back on the pump and will be kept pumping steadily from this on so as to have a prolonged test which will reveal the well's real value as a producer. With ample storage the well can be given a 30-day test.

Golden West Oil Company's No. 1 Odom about 1,000 feet east of the Medina Oil Company's No. 1 Taylor is dry at 510 feet, the total depth and Golden West has moved 750 feet south on the same lease and is starting the No. 2 Odom. Al Buchanan on a location north of the Golden West's No. 1 Odom is drilling at about 150 feet.

Several new tests are to go in around the new shallow pool. Kittle and Townsley have started a test on survey No. 134, the next north of that on which the No. 1 Taylor is located and Jacobs et al have started a test south of the Taylor No. 1. Medina Oil Company has made location for its Taylor No. 3 and its No. 1 Mott on Survey 1267. Dr. J. M. Cavender has made location for his No. 1 Batot on survey 1479 and Golden West is moving No. 1 Batot on survey No. 134. Uvalde people have made a location on M. Langfeld tract, survey 1171.

Kittle is drilling below 500 feet in his No. 1 Richter on survey 89. Ina Oil Company No. 2 Wilson is drilling. Several new wildcat tests are soon to be announced in the county and a campaign is about to start for deep oil.—Sunday's Express.

WELL ON ADAMS TRACT IN MEDINA IS GASSER AT 903

Henderson & Holden's Adams No. 1, in Medina County, a couple of miles south of the Ina Oil field, is making about 8,000,000 to 10,000,000 cubic feet of gas, according to the estimate of the driller, and is probably the biggest gas well Medina County has ever had. It is 903 feet deep and has 485 feet of 8 1-2-inch casing set in the hole, and while the well was being allowed to flow Monday it was in shape where it could be shut in at any time.

J. L. Henderson, one of the owners of the well, was expected in Monday night from El Paso, and the well was not to be shut in till he arrived and gave orders. The well is on the J. E. Adams farm in the Edmund C. Durst survey No. 13, and is 215 feet from the north line and 2,200 feet from the east line of the survey. It is on the right bank of Hondo creek and less than two miles south of the Ina field.

The well was started in January with cable tools and at about 500 feet changed to rotary rig. Carl Bros. taking the contract at that depth to drill it. They resumed drilling only a few days ago. W. H. Snyder is in charge of the well, representing Henderson & Holden.

The well is probably one of the most important finds in Medina County. Other wells have had showing of gas, but none with as much gas as the Adams well, and the history of many oil fields is that gas was first found and later oil. The gas was encountered in shale and shell.—Tuesday's Express.

WILL COMPLETE MEDINA GASSER ON ADAMS TRACT.

Henderson & Holden will complete their No. 1 Adams in Medina County as a gasser. The well will be mudded off and casing set and then drilled in and brought in a second time. It was Wednesday making gas.

The well came in Sunday at a depth of 903 feet and the drill got plugged so that it was impossible to pump mud in to hold the gas back. The well has been making gas since with the drill stem in the hole and with 485 feet of casing set. It is a mile or so south of the Ina field down the Hondo river and has opened up new questions of geology in that territory.

Golden West Oil Company in the Hondo field four miles south of Hondo in the No. 2 Odom hit the lime rock at 80 feet that was encountered at the same depth in the Medina Oil Company's Taylor No. 1 which discovered the field. Golden West's well is 330 feet south of its No. 1, The No. 1 Odom is due east

of the No. 1 Taylor and it failed to find any lime rock and got a log entirely different from the No. 1 Taylor. The Odom No. 2 finding the lime rock at the same depth as in the discovery well, is a favorable indication.

Odom No. 2 lost the bit when it hit the lime rock and after fishing for 24 hours, started skidding over Wednesday morning. It will move but a few feet and in a day's drilling will be back to the lime rock. The Medina Oil Company's Taylor No. 1, the discovery well, on Tuesday was pumping about 40 barrels of oil a day. It has now been pumping into the 5,000-barrel steel tank for several days. It got the pay at 356. The No. 2 Taylor, 300 feet to the west got pay at 315 feet and for a time it was thought not to be the same sand as in the No. 1 and was drilled to 380 feet, but failed to find any more sand and will put on production at 315, where it is a well but much smaller than the No. 1.

Numerous other tests are being started in the territory around the Taylor No. 1 Golden West on survey 134 on the Batot farm about a mile west of Taylor No. 1 was drilling at 150 feet Tuesday night. Cyrus W. Jameson with an Armstrong spudder one and a quarter miles southwest of the discovery well, spudded in about 10 days ago and the well at the start was logging pretty well with the Taylor No. 1.

Kittle has spudded in on survey 134 also.

CROP EXHIBITION HALL IS PLANNED.

Natalia Agricultural Conference
Picks San Antonio for Displays.

Plans for the establishment of a permanent agricultural products exhibit hall in San Antonio for all field crops grown in Southwest Texas were discussed Tuesday at a general conference of Chamber of Commerce and agricultural agents of Bexar and surrounding counties held at Natalia.

Definite action will be taken during the coming week when A. R. Ponder, president of the San Antonio Chamber of Commerce, will ask the agricultural committee to appoint a special committee to wait on city officials in a conference for mapping out plans for the exhibit hall.

Whether the city will be asked to co-operate in the construction of a suitable building or designate a space in the city auditorium for that purpose will be decided at the next meeting of the agricultural committee and Chamber of Commerce executives.

The conference at Natalia was attended by delegations from the San Antonio Chamber of Commerce, San Antonio Real Estate Board, luncheon clubs of the city, county Agents from Kerr, Medina, Frio, Wilson, Zavala, Comal and other counties.

Chamber of Commerce representatives from Hondo, Moore, Dilley, Somerset, Seguin, Kerrville, Cotulla and Floresville. W. A. Wurzbach presided over the round table discussion held Tuesday morning.

The speakers included N. W. Jones of Pearsall, J. Forgason of Hondo, E. O. Beck of Floresville, Prescott of Kerrville and others.

T. H. Ridgeway made a talk on pecan culture. A. R. Ponder pledged the services of the San Antonio Chamber of Commerce in obtaining an exhibit hall.

Zeferino Dominguez, personal representative of Consul General A. P. Carrillo, and member of the agricultural committee of the chamber of Commerce, made an address as representative of the Mexican government.

Members of the conference, as guests of the Medina Valley Irrigated Farms, Inc., were taken on a tour of the Medina irrigated farms during the afternoon.

At the close of the conference it was voted unanimously to continue the conferences, holding one each month. Kerrville extended an invitation to the conference for April 16, which was accepted. The conference also voted to send a telegram to President Calles of Mexico extending their appreciation for having a representative of the Mexican government present at the meeting.—Wednesday's Express.

Besides County Agent Forgason, the conference was attended by Felix Batot and W. N. Saathoff, President and Secretary respectively of the Hondo Chamber of Commerce. They reported a most profitable and enjoyable meeting.

THE SECRET.

From The Huajillo Leaf.

There is a secret in the air; it breathes, it throbs, it's everywhere. The earth gets warm and starts to stir; the wings of birds are heard to whirl through field and meadow all day long. Hark to the sweetness of their song! The trees no longer bow their heads, no longer sport their leaves of red. Their budding branches can be seen bursting into tiny twigs of green. The rambling rose wakes from its sleep, it cares no more for covers deep; it turns its arms toward the sky and climbs to hold its blossoms high. The little violet, so demure, once more peeps forth with petals pure; and every fruit tree here and ait has casts its cloak of mourning off. Among the lilacs stout the leaves and flowers sally out. The bees buzz round in joy or glee; the world seems full of joy for me. One wakes to see in a clear, blue sky the friendly sun marching on high. The soft rays coming down so sly tell us the secret shall not die. This mystery "will finally out" and clothe the country roundabout with robes of green and colors bright that somehow make the world seem right. It makes the season a wondrous thing, for what this secret is—is SPRING!

SOUNDED THAT WAY.

"A lanky country youth entered the crossroads general store to order some groceries. He was seventeen years old "and was passing through that age of adolescence during which a boy seems all hands and feet, and his vocal organs, rapidly developing are wont to cause his voice to undergo sudden and involuntary changes from high treble to low base.

In an authoritative rumbling bass voice he demanded of the busy clerk, "Give me a can of corn" (then, his voice suddenly changing to a shrill falsetto, he continued) "and a sack of flour."

"Well, don't be in a hurry. I can't wait on both of you at once," snapped the clerk.

THE TAX QUESTION.

Treasury department estimates American People will pay for all kinds of taxes, direct and indirect, the round sum of 10 billion dollars in the current fiscal year.

This means that about \$1 out of every \$7 of the national income goes for support of various forms of government—federal, state, municipal and county.

The tax burden cannot go on increasing. It is doubtful whether it can be maintained at the present rate without serious consequence.

Federal taxes are pared from every angle and it is now up to the states, counties and cities to follow the example.—Selected.
